***Response to Amendment***

1. Responsive to amendment received on January 20, 2005, cancelled claims 1-5, claims 6-18, previously allowed, are in the application.

***Reasons for Allowance***

2. Claims 6-18 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The instant application relates to forwarding network traffic to desired destination using unique lookup tables to each port. Tables are populated based on use, avoiding stale entries and thereby conserving memory. The unique method steps include "inserting an entry in the lookup table for the destination address if the destination address is not found (claim 6) and a central management module transmitting information to requesting switching interface and foregoing transmittal of information to non-requesting switching interfaces," (claims 7 and 14). The closest prior art of record, Hill et al. (US 5,796,944) discloses address management and searching network address tables for source and destination addresses, fails to disclose the above underlined limitations and renders claims 6-18 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
